

An introduction to advocacy

A Kindred interactive workshop

Are you embarking on the journey of advocating for your child with disability or developmental delay? You're not alone.

From the very first moments, we all want the best for our children, and advocating for their needs becomes an integral part of the journey. But how do we advocate effectively? This interactive workshop is designed specifically for parents like you, new on the path of disability advocacy.

Join us to:

- Unpack the different types of advocacy
- Learn practical strategies and communication skills for effective advocacy in different settings.
- Connect with other parents and discover resources to navigate the journey alongside our community.

This workshop will help you to celebrate every advocacy win, big or small, and leave with renewed confidence in your role as your child's advocate.
