

## Let's Get started: Getting Ready for School and Life by Family Advocacy

Explore the lifelong benefits of inclusive education for children with disability

Is your child starting school soon—or have they just started—and you're thinking about what their future might look like in a mainstream school?

Join us for this practical workshop presented by Family Advocacy.

Together, we'll explore how to begin planning for an inclusive education in a mainstream school—an ordinary class with peers of the same age.

What we will cover:

- What inclusive education is and why it matters
- Choosing a school and transitioning with confidence
- Supports available in the NSW school system
- Building a strong relationship with your child's school
- Practical strategies to support a positive school experience
- The lifelong benefits of inclusion
- How Family Advocacy can support you on this journey
